Investment Objective : To generate capital appreciation by actively investing in equity and equity related securities. For defensive considerations, the scheme may invest in debt, money market instruments and derivatives. The investment manager will have the discretion to take aggressive asset calls i.e. by investing 100% invested in equity market/equity related instruments at a given point of time and 0% at another, in which case, the fund may be invested in debt related instruments at its discretion. The AMC may choose to churn the portfolio of the scheme in order to achieve the investment objective. The scheme is suitable for investors seeking high returns and for those who are willing to take commensurate risks.
